

# For Elise

## Saint Motel

When it's tough  
When you get stuck  
You're at the wall  
Of the writer's block. You need a spark  
A light in the dark  
To get you out of your head  
And into your heart. Taking a walk on the wild side  
Something in the way she moves  
Candle in the wind  
And it's blowing everywhere we go. All these girls got something going on.  
Met in the club her name was Lola  
Champagne tasting Coca-Cola  
In the hands of my loving  
My love does her good. All us boys need something, that they got. This one's for Elise!  
Norma Jean, Pattie Boyd and Carole King  
Holly Woodlawn, Linda Eastman, Candy Darling got it started with a song. This one's for  
Elise! The muses of the Greeks and Romans  
Steal the immortal beloved of Beethoven  
They all lit a spark and you know that they got it going  
Shout out to the girl, over there, in my chair: Whoa Elise!  
Norma Jean, Pattie Boyd and Carole King  
Holly Woodlawn, Linda Eastman, Candy Darling got it started with a song. This one's for Elise!  
This one's for Elise.  
Norma Jean, Pattie Boyd and Carole King  
Holly Woodlawn, Linda Eastman, Candy Darling got it started... For Elise! Norma Jean, Pattie  
Boyd and Carole King  
Holly Woodlawn, Linda Eastman, Candy Darling got it started with a song. This one's for Elise...
