

# Necrotic Manifesto

## Aborted

A work of art, my collection of rot  
A rotten census, manifest of the damned  
Sordid formulae of harvesting the dead  
Mentally degrading, socially perverted  
Six feet of foreplay towards my needs  
Archived decay - necrotic manifesto  
Decrypting semiology  
This book of the dead, a symposium indeed  
Celebration of flesh and bone  
My fascination is far gone  
The scriptures of the dead satisfy my curiosity  
So fascinating, so captivating  
Enigmatic paths to rigor mortis  
A collage of deterioration  
Macerated limbs are dislodged  
Upon tissue I viciously gorge  
Celebration of flesh and bone  
My fascination is far gone  
Necrotic Manifesto - creating life after death  
Proceed with my work - surreal necrotic rampage  
A grisly work of rot  
Decrypting semiology  
This book of the dead, a symposium indeed  
Celebration of flesh and bone  
My fascination is long gone
