

Midnight Serenade (feat. Erik Hassle)

Omi

On the back streets of JA, think I made it through another day
Think I'll give it another shot to get you out of my head
And the angels rescue me, save my sorrows for another day
Think I'll give it another shot to forget all of our miseries I just wanna drink the night away,
away, away, away
If you wanna drink the night away, save my sorrows for another day Cause I never met no one
like you, so beautiful
Girl I never met no one like you, so beautiful
The way you look at me, I know it's real
Girl I never met no one like you, so beautiful, so beautiful
On the back streets of LA, you asked me for a cigarette
I'm off my feet yeah, tell me do you feel the same? I just wanna drink the night away, away,
away, away
If you wanna drink the night away, away, save your sorrows for another day
Cause I never met no one like you, so beautiful
Girl I never met no one like you, so beautiful
The way you look at me, I know it's real
Girl I never met no one like you, so beautiful, so beautiful I never met no one like you, so
beautiful, ooh
Oh yes, I said I never met no one like you, so beautiful, so beautiful
