

Find Me (feat. Dion Timmer & Excision)

Datsik

Stop chasing all the city lights
Breath me in, go on and take a bite
Count on me to make you come alive
You know where to find me tonight
You know where to find me tonight
You know where to find me tonight
You know where to find me tonight
You know where to find me tonight
Stop chasing all the city lights
Breath me in, go on and take a bite
Count on me to make you come alive
You know where to find me tonight
You know where to find me tonight
You know where to find me tonight
You know where to find me tonight
This shit's about to get heavy
You know where to find me tonight
You know where to find me tonight
