

Heart Shaped World

[Chely Wright](#)

(Kim Williams/Kent Blazy/Bob DiPiero) Columbus said the world was round

Back when everyone said it was flat

Just between me and you and the man in the moon

Baby, it ain't anything like that. 'Cause were living in a heart shaped world

Our head in the clouds, but our feet on the ground

Yeah, we're living in a heart shaped world

Don't you know baby, love makes the world go 'round. Now, satellite pictures sent back to earth

Shows a big, blue ball floatin out in space

We've got a vision, yeah, and we're on a mission

To tell the whole planet it ain't that way. 'Cause were living in a heart shaped world

Our head in the clouds, but our feet on the ground

Yeah, we're living in a heart shaped world

Don't you know baby, love makes the world go 'round.

Don't you know baby, love makes the world go.

Don't you know baby, love makes the world go 'round...
