

Day Trippin' (feat. Estelle)

Kaskade

Got me day trippin'
My head's spinning
Got me day trippin'
Up all night with you
Got me day trippin'
My head's spinning
Got me day trippin'

Lose my mind, up all night with you
4 am, we were going
We were moving 'til the sun came up
6 am, left this morning
Now I can't stop thinking 'bout your love
I got it, I got it bad
I keep on flashing back
Don't even know where I'm at
I need something to get me through
'Til I can be with you
Dreaming, it's all déjà vu
Got me day trippin'
My head's spinning
Got me day trippin'
Up all night with you
Got me day trippin'
My head's spinning
Got me day trippin'

Lose my mind, up all night with you
1 pm, wanna call you
But I know I gotta catch my breath
4, 5, 6, is it too soon?
Wanna get you in the dark again
I got it, I got it bad
I keep on flashing back
Don't even know where I'm at
I need something to get me through
'Til I can be with you
Dreaming, it's all déjà vu
Got me day trippin'
My head's spinning
Got me day trippin'
Up all night with you
Got me day trippin'
My head's spinning
Got me day trippin'

Lose my mind, up all night with you
