

Distrust

Lunice

[Intro: Denzel Curry]

Careful who you hang around
They only want you for the (loot)
Claiming that they love you
But they'll have your ass in hot (pursuit)
Never turn your back 'cause
When they get the chance they gonna (shoot)
Catch you while you slippin'
Puttin' shots inside your (Subaru)

[Bridge:]

I don't trust soul
I'm an outer body experience
My ligaments attached
To this soulless corpse I been living in
I'm riding, watching people plottin'
On they only benefit
I'm I the only human in truest form?
I've been heaven sent
It's evident my element
Is not meant to be mentioned
With these other motherfuckers that ain't
Never been through nothing

[Verse 1: ?]

Fraud niggas been tryna get down
[?] niggas for all figures
I'm puttin' you rappers back in that box
Up for delivery, who can you trust
When you chose the ops
Probably go [?] with the cop
'Cause niggas [?]
I'm paranoid, more power, more problems [?]
