

# Every Day

[Eric Prydz](#)

If everyday goes like this,  
How do we survive?If everyday goes like this,  
How do we survive?We're working late on the night  
Shift to get peace of mindIf everyday goes like this,  
How do we survive?We're working late on the night  
Shift to get peace of mind  
If everyday goes like this,  
How do we survive?We're working late on the night  
Shift to get peace of mind... If everyday goes like this,  
How do we survive?We're working late on the night  
Shift to get peace of mindIf everyday goes like this... We're working late on the night  
Shift to get peace of mindIf everyday goes like this,  
How do we survive?We're working late on the night  
Shift to get peace of mind  
If everyday goes like this,  
How do we survive?We're working late on the night  
Shift to get peace of mind
