Every Day

Eric Prydz

If everyday goes like this, How do we survive? If everyday goes like this, How do we survive? We're working late on the night Shift to get peace of mindIf everyday goes like this, How do we survive? We're working late on the night Shift to get peace of mind If everyday goes like this, How do we survive? We're working late on the night Shift to get peace of mind... If everyday goes like this, How do we survive? We're working late on the night Shift to get peace of mindIf everyday goes like this...We're working late on the night Shift to get peace of mindIf everyday goes like this, How do we survive? We're working late on the night Shift to get peace of mind If everyday goes like this, How do we survive? We're working late on the night Shift to get peace of mind
