

# Since I Found You

Christian Bautista

I think of you in everything that i do  
To be with you what ever it takes i'll do  
Cause you my love, you all my heart desires  
You've lighten up my life forever i'm alive Since i found you my world seems so brand new  
You've show me the love i never knew  
Your presence has spark my whole life through  
Since i found you my life begin so new  
Now who needs a dream when there is you  
For all of my dreams came true  
Since i found you Your love shines bright  
Through all the corners of my heart  
Maybe you are my dearest heart  
I give you all i have my heart, my soul, my life My destiny is you  
Forever true... i'm so in love with you  
Since i found you my world seems so brand new  
You've show me the love i never knew  
Your presence has spark my whole life through  
Since i found you my life begin so new  
Now who needs a dream when there is you  
For all of my dreams came true  
Since i found you  
My heart forever true...  
In love with you.
