Come

Jain

Black burn I feel so alone without you boy now I 'm here

hanging out in the street

thinking about reactions over actions

walking on the sky of my dreamsCome, come, my baby come

I will show you the world

Come, come, my baby come

I will cover your nightmares

Come, come, my baby come

I will love you forever

Come, come, my baby come

I will not let you goMy love, I just feel so lost

without you boy

I am yours even if time has passed

Take me away

from this impetuous world

leaving this jail of my mindCome, come, my baby come

I will show you the world

Come, come, my baby come

I will cover your nightmares

Come, come, my baby come

I will love you forever

Come, come, my baby come

I will not let you goMy soul, my soul is in Africa, with you boy

Come, come, my baby come

I will show you the world

Come, come, my baby come

I will cover your nightmares

Come, come, my baby come

I will love you forever

Come, come, my baby come

I will not let you goMy soul, is in Africa

with you boy

Looking at the stars

on this diamond sky

giving you my smile

so you can keep it on your mind

floating on your blazing eyesCome, come, my baby come

I will show you the world

Come, come, my baby come

I will cover your nightmares Come, come, my baby come I will love you forever Come, come, my baby come I will not let you go
