

# A Skeletal Domain

## Cannibal Corpse

Trapped beneath rotting remains  
A slow decay of life takes its form  
Withered death and bone emerge  
From cemeteries of the earth  
Replacing all that is known from this world  
Towering structures take shape  
As more cities are laid to waste  
Survivors of this morbid fate  
The reborn meek not live not dead  
Are left to start a new  
Misshapen half mutated  
Not a zombie not a human  
Evil creatures grew  
Not one thing left alive but them  
The strongest will begin to reign  
A new society takes place  
Where the way of the Cannibal  
Rules in this skeletal domain  
A kingdom of the damned  
Carnal war consuming them by  
Eating flesh for nourishment  
Solution for a short-term survival  
Slaughtered are the weakest first  
Feeding those with evil thirst  
As blood of the dead saturates the ground  
Again the end has begun  
Another kingdom will be damned  
Survivors of this morbid fate  
The reborn meek not live not dead  
Are left to start a new  
Misshapen and half mutated  
Not a zombie not a human  
Evil creatures grew  
Not one thing left alive but them  
The strongest will begin to reign  
A new society takes place  
Where the way of the cannibal  
Rules in this skeletal domain  
Survivors of this morbid fate  
The reborn meek not live not dead  
Are left to start a new  
Misshapen and half mutated  
Not a zombie not a human  
Evil creatures grew  
Not one thing left alive but them  
The strongest will begin to reign  
A new society takes place  
Where the way of the Cannibal  
Rules in this skeletal domain
