

# I See You

## MISSIO

I see you when you're down  
And depressed, just a mess  
I see you when you're cry When you're shy  
When you want to die  
I see you when you smile  
It takes a while  
At least you're here  
I see you  
Yes, I see you I'm alone with you  
You're alone with me I see you when you hide  
And when you lie, it's no surprise  
I see you when run from the light  
Within your eyes  
I see you when you think  
That I don't notice all those scars  
I see you  
Yes, I see you I'm alone with you  
You're alone with me  
What a mess you've made of everything I'm alone with you  
You're alone with me  
And I'm hoping that you will see yourself  
Like I see you  
Yes, I see you  
I see you  
Yes, I see you I'm alone with you  
You're alone with me  
I see you when you chase  
All the dreams inside your head  
I see you when you laugh  
And when you love until the bitter end I see you in the dark  
At the dawn of something new  
I see you  
Yes, I see you I'm alone with you  
You're alone with me  
And i'm hoping that you will see yourself  
Like I see you  
Yes, I see you  
I see you  
Yes, I see you Even when you're cry  
And even when you're shy  
You mean everything to me Even when you lie  
And even when you hide

You mean everything to me(I see, I see, I see you)  
Yes, I see you  
(I see, I see, I see you)  
I see you  
Even when you're cry  
And even when you're shy  
Yes, I see you  
(I see, I see, I see you)I'm alone with you  
You're alone with me  
And I'm hoping that you will see yourself
