

# Taking My Time (feat. Kool John)

## Kalin and Myles

...  
shes taking my time but its worth it  
im loving the way that she work it  
cause when she do it so perfect  
go and throw that back and reverse it  
can you throw it back  
can you throw that thang back in my lap  
i wanna see you throw it back  
can you throw that thang back in my lap  
i know you know  
im with it with it  
its good lets go  
let me get it get it  
homerun knocked out  
when i hit it hit it  
so fresh so fly  
she feel it feel it  
look  
i wanna see you throw that back  
i need a round of applause  
can you make that clap  
see you puttin it to work  
you dont need no staff  
do it do it  
don't stop  
girl shake that  
thang  
i got the bass  
trying to break the speakers  
red logo  
on the back of the sneakers  
i'm in the game  
used to be up in the bleachers  
i still going dumb in the white t-shirt  
wassup  
aye  
i'll make you feel appreciated  
put your body in a couple of different places (yeah)  
and i dont got time but i make it  
just so you can take it  
so come over and take it from me  
she taking my time but it's worth it

im lovin the way she work it  
cause when she do it so perfect  
go and throw that back and reverse it
