

Three Blind Mice

Max Romeo

I went to a party
Last saturday night
When I reached the party
Everything was right Then Babylon raid, them raid, them raid
Me gets me 'fraid, me gets me 'fraid It was like three blind mice
You could-a see how dem run
It was like three blind mice
You could-a see how dem run
Baddie sticks start flyin'
Man start to bawl
Some jump de fence
Some put off defense But it gets me 'fraid
When Babylon raid The police checked the deejay
Tell him to turn off sound
The crowd never like that
Them start gathering 'round Let the music play, let it play, let it play
Let the music play It was like three blind mice
You could-a see how dem run
It was like three blind mice
No man no want go a jail
Let the music play, let it play, let it play
Let the music play
Let the music play
Let it play
Let it play
