

# Three Blind Mice

Max Romeo

I went to a party  
Last saturday night  
When I reached the party  
Everything was right Then Babylon raid, them raid, them raid  
Me gets me 'fraid, me gets me 'fraid It was like three blind mice  
You could-a see how dem run  
It was like three blind mice  
You could-a see how dem run  
Baddie sticks start flyin'  
Man start to bawl  
Some jump de fence  
Some put off defense But it gets me 'fraid  
When Babylon raid The police checked the deejay  
Tell him to turn off sound  
The crowd never like that  
Them start gathering 'round Let the music play, let it play, let it play  
Let the music play It was like three blind mice  
You could-a see how dem run  
It was like three blind mice  
No man no want go a jail  
Let the music play, let it play, let it play  
Let the music play  
Let the music play  
Let it play  
Let it play
