

This Flesh a Tomb

Atreyu

I feel eyelashes on my cheek
They lacerate my flesh, a pain so good
So put your hand in mine, never let go
Never wake up, cause Im done with promisesIm taking blood oaths, feels like you could kiss
My imperfections, my imperfections away
And I would stand, I stand by your side
Until the sun turns the sky, all the colors I see in your eyesAnd Ill never need to see the sun
again
Theres enough light in your eyes to light up our little world
So take me, take me away
Kill me slowly, Ill never be the same
And I swear to you on everything I am
And I dedicate to you all that I have
And I promise you that Ill stand right by your side
Forever and always, until the day I dieThe bite marks on my neck never felt so good
Im losing control and its all that I can do
Not to blackout, fall into lust with you
Your kisses infect me, dark gift is loving youAnd Ill never need to see the sun again
Theres enough light in your eyes to light up our little world
So take me, take me away
Kill me slowly, Ill never be the sameAnd I feel immortal
And I want to make you feel the same
So stand by me as we immolate
We can burn in each others arms
And I feel immortal
And I want to make you feel the same
So stand by me as we immolate
We can burn in each others arms
