

Make This Go On Forever

Snow Patrol

Please don't let this turn into something it's not
I can only give you everything I've got
I can't be as sorry as you think I should
But I still love you more than anyone else could
All that I keep thinking throughout this whole
flight
Is it could take my whole damn life to make this right
This splintered mast I'm holding on won't save me long
Because I know fine well that what I did was wrong
The last girl in the last reason to make this
last for as long
as I could
First kiss and the first time that I felt connected to anything
The weight of water, the way you
told me to look past everything
I had ever learned
The final word in the final sentence you ever uttered to me was
love
We have got through so much worse than this before
What's so different this time that you can't ignore
You say it is much more than just my last mistake
And we should spend some time apart for both our sakes
The last girl in the last reason to make
this last for as long
as I could
First kiss and the first time that I felt connected to anything
The weight of water, the way you
told me to look past everything
I had ever learned
The final word in the final sentence you ever uttered to me was
love
The last girl in the last reason to make this last for as long
as I could
First kiss and the first time that I felt connected to anything
The weight of water, the way you told me to look past everything
I had ever learned
The final word in the final sentence you ever uttered to me was
love
And I don't know where to look
My words just break and melt
Please just save me from this darkness x2
And I don't know where to look
My words just break and melt
Please just save me from this darkness x2
