

# Scream

Sergey Lazarev

No I can't stay here longer  
You cannot make me cry  
So, I will leave you to wonder  
What will become of our lives  
I'll swallow hard  
Fall apart  
Break and bleed but  
You won't see  
Tears won't fall  
While pride stands tall  
Maybe they can't be heard or seen  
But tears aren't quiet things  
They scre-e-e-eam  
They scre-e-e-eam, ah-ah-ah  
They scre-e-e-eam, ah-ah-ah  
Though my throat is on fire  
My eyes will be liars  
And they'll try to stay drier  
Until you turn away  
I'll swallow hard  
Fall apart  
Break and bleed but  
You won't see  
Tears will fall  
I hear them all  
They scre-e-e-eam (scream, the scream)  
They scre-e-e-eam, ah-ah-ah  
Not so silent and innocent  
Acid rain from your finger prints  
Echoes rivers of loneliness  
Hitting the walls of my heart  
(They scre-e-e-eam, oh-oh) Not so silent and innocent  
Acid rain from your finger prints  
(They scre-e-e-eam, ah-ah-ah) Echoes rivers of loneliness  
Hitting the walls of my heart
