

Emma Watson

AJ Rafael

You are a star
And I'm just a nobody You're not just a girl
You are a somebody
And I wanna be
That someone for you You cast your spells
I watch in the movies
Can I pick you up
At 7 o'clock please
Cause I wanna be
That someone for you And I know that
It's hard for you to see
Just a normal guy like me
Can be just what you need
But if you would notice me
I'll give you everything
That you are missing can I be the ordinary guy for you
So take a good look at me
Cause I'll show you everything
Cause you showed me magic
Can I be the ordinary guy for you
The ordinary guy for you? So can I be
Can I be your secret
Just give me your heart
I promise to keep it
Cause I wanna be that someone for you And I know that
It's hard for you to see
Just a normal guy like me
Can be just what you need
But if you would notice me
I'll give you everything
That you are missing can I be the ordinary guy for you
So take a good look at me
Cause I'll show you everything
Cause you showed me magic
Can I be the ordinary guy for you
The ordinary guy for you Oh
The ordinary guy for you So can you notice me
Cause I'll give you everything
That you are missing can I be the ordinary guy for you So take a good look at me
Cause I'll show you everything
Cause you showed me magic
Can I be the ordinary guy for you

The ordinary guy for you

Ohh

The ordinary guy for you

Ohh

The ordinary guy for you
