

Two of Us

Tweet

The two us just you and me
The two us just you and me
Let me tell you this, you are my inspiration
90 was a good year
Through all of this show biz you were patient and
You are the star, my dear, yeah yeah yeah
The two of us just you and me
The two of us just you and me
If I had one wish when I'm through growing
To be just like
Especially and through all of this show biz you didn't know it
It would benefit me yeah
The two of us just you and me
The two of us just you and me
You have my nose
I wear your clothes
And no
Can't no one come between we
Let everyone know
It's okay to show
Let it show
Just what you mean to me
The two of us just you and me
The two of us just you and me
