

Woman

Wolfmother

Woman
You know you're a woman
You got to be a woman
I got the feeling of love When you're talking to me
You see right through me
I got the feeling of love She's a woman
You know what I mean
You better listen
Listen to me
She's gonna set you free
Oh, yeah
You're kinda looking at me
Like I've got to set you free
I can't be nobody You're kinda looking at me
Like I've got to set you free
I can't be nobody She's a woman
You know what I mean
You better listen
Listen to me
She's gonna set you free
Oh yeah Woman
You know you're a woman
You got to be a woman
I got the feeling of love
When you're talkin' to me
You see right through me
I got the feeling of love
She's a woman
You know what I mean
You better listen
Listen to me
She's gonna set you free
Oh yeah
