

# Shape (Deetron Remix)

## Glasser

I live on the beach  
Waters surrounding me  
And its got too deep  
I let it get to the deep  
My home has no shade  
Nothing to sustain me  
But it keeps me safe  
From my dream pain  
In the dim light of the truth  
All you can do is bow  
The walls have inches  
Im new in this place, me  
But I know Ill stay  
Cant ever get away  
To the fluctuation  
I have on my womb  
And I look on morning  
With all of the beach  
Theres an ocean  
Making life beyond believe  
And you vast insist to match  
For me this day  
And in the light of the truth  
All I can do is bow
