

Sway

Danielle Bradbery

Hey, we're all in the same boat
Life can really suck sometimes
But hey, can't live in a shadow
So here's a little piece of advice Start by kicking off your shoes
Leave 'em right by the door
Then you call a couple friends
And you call a few more
Put a drink into your glass
That will make you let go
Then you find something smooth on the radio
That makes you wanna sway to the left
And sway to the right
Get lost in a groove that will make your lose you mind
Put a smile on your face and you right into a daze
No there ain't nothing wrong when a song comes on that makes you wanna
Sway, eh eh ay, eh eh ay, oh oh oh Hey, world's kinda messed up
We got no time for sitting around
Wait for it to let up
Let's break some rules and figure it out Start by kicking off your shoes
Leave 'em right by the door
Then you call a couple friends
And you call a few more
Put a drink into your glass
That will make you let go
Then you find something smooth on the radio
That makes you wanna sway to the left
And sway to the right
Get lost in a groove that will make your lose you mind
Put a smile on your face and you right into a daze
No there ain't nothing wrong when a song comes on that makes you wanna
Sway, eh eh ay, eh eh ay, oh oh oh
That makes you wanna
Sway, eh eh ay, eh eh ay, oh oh oh Start by kicking off your shoes
And you find something smooth Something that makes you wanna sway to the left
And sway to the right
Get lost in a groove that will make your lose you mind
Put a smile on your face and you right into a daze
No there ain't nothing wrong when a song comes on that makes you wanna
Sway, eh eh ay, eh eh ay, oh oh oh
That makes you wanna
Sway, eh eh ay, eh eh ay, oh oh oh
