

# Sway

## Danielle Bradbery

Hey, we're all in the same boat  
Life can really suck sometimes  
But hey, can't live in a shadow  
So here's a little piece of advice Start by kicking off your shoes  
Leave 'em right by the door  
Then you call a couple friends  
And you call a few more  
Put a drink into your glass  
That will make you let go  
Then you find something smooth on the radio  
That makes you wanna sway to the left  
And sway to the right  
Get lost in a groove that will make your lose you mind  
Put a smile on your face and you right into a daze  
No there ain't nothing wrong when a song comes on that makes you wanna  
Sway, eh eh ay, eh eh ay, oh oh oh Hey, world's kinda messed up  
We got no time for sitting around  
Wait for it to let up  
Let's break some rules and figure it out Start by kicking off your shoes  
Leave 'em right by the door  
Then you call a couple friends  
And you call a few more  
Put a drink into your glass  
That will make you let go  
Then you find something smooth on the radio  
That makes you wanna sway to the left  
And sway to the right  
Get lost in a groove that will make your lose you mind  
Put a smile on your face and you right into a daze  
No there ain't nothing wrong when a song comes on that makes you wanna  
Sway, eh eh ay, eh eh ay, oh oh oh  
That makes you wanna  
Sway, eh eh ay, eh eh ay, oh oh oh Start by kicking off your shoes  
And you find something smooth Something that makes you wanna sway to the left  
And sway to the right  
Get lost in a groove that will make your lose you mind  
Put a smile on your face and you right into a daze  
No there ain't nothing wrong when a song comes on that makes you wanna  
Sway, eh eh ay, eh eh ay, oh oh oh  
That makes you wanna  
Sway, eh eh ay, eh eh ay, oh oh oh
