

Fifteen (feat. Chela) [Rotkraft Remix]

Goldroom

It's been a long time
Wondering why
The summer smells like sin and wonder
Feels like it
Got inside of
A place and time I dream about when
I get a walk in
I'll let us always
The summer sun I can't go back to
The touch of your skin
On my skin
Look always the sun's above us
Now you know we'll look back in time
But we were only fifteen
Fifteen we're floating through the slipstream
You're with me
We were only fifteen
Fifteen just floating through the slipstream
It's been a long time
Wondering why
The summer smells like sin and wonder
Feels like it
Got inside of
A place and time I dream about when
I get a walk in
I'll let us always
The summer sun I can't go back to
The touch of your skin
On my skin
Look away the sun's above us
Now you know we'll look back up in time
But we were only fifteen
Fifteen we're floating through the slipstream
You're with me
We were only fifteen
Fifteen we're floating through the slipstream
