

# True Romance (Gildas Kitsuné Club Night Remix)

## Citizen's

Oh my love  
what are we doing here  
This little heart  
Racing through the gates  
Lighting up my cigarettes and counting out the change in our pockets  
Tell me love  
Will we ever know ourselves? True romance  
True romance Oh my love  
Keep your eyes on the road  
I am asleep to the lights up ahead  
What kind of minds are these that the gods and the television gave us  
Hold me love until we disappear again  
Here we are  
True romance  
Here we are  
True romance  
You hold it in your hands - true romance  
I found a place to make a stand - true romance Never knowing where you came from  
Or where to go, true romance  
Never knowing where you came from  
Or where to go, true romance  
And whatever was I thinking  
When I let you go  
Now tell me what was I thinking  
When I let you go  
True romance  
True romance  
Here we are, true romance  
Here we are, true romance  
Here we are
