

# Another Name

## Drowning Pool

I don't see anything to believe  
I don't see the need  
When everything you say is true  
You're defined by the worst thing you do  
The worst thing you do All the lies and all the pain  
Just the devil by another name  
All the hate and all the rage  
Just the devil by another name All my life I've been deceived  
Left too long to grieve  
When your days come down to few  
You're defined by the last thing you do  
The last thing you do  
All the lies and all the pain  
Just the devil by another name  
All the hate and all the rage  
Just the devil by another name It's all the same  
Just the devil by another name  
It's all the same  
Just the devil by another name You're defined by the worst thing you do  
The worst thing you do  
The worst thing you do All the lies and all the pain  
Just the devil by another name  
All the hate and all the rage  
Just the devil by another name  
It's all the same  
Just the devil by another name  
It's all the same  
Just the devil by another name It's all the same  
(It's all the same)  
Just the devil by another name  
(It's just another name)  
It's all the same  
(It's all the same)  
Just the devil by another name
