

# Dragonfly (Unplugged Radio Edit)

## Shaman's Harvest

Maybe the sky's falling down around the babies  
Maybe the world is gonna spin out of control  
I don't care anymore.  
What if I quit today workin' for the man  
And said I've had enough, well maybe I can  
It's all gonna end anyway.  
Tell me doctor, whats the cure for the wicked man's blues? Fly Dragonfly  
Fly Dragonfly  
Fly Dragonfly  
When the sky, falls to the sea  
I won't mind  
The cause in me  
When the wind blows through the trees I won't cry for dragonfly.  
Fly Dragonfly Fly Dragonfly.  
When I come  
Get me a piece  
Take my advice Just let me be.  
When the moon  
turns black as night We'll bathe in the fires  
Of Dragonfly.  
Fly Dragonfly.  
Don't take so long  
I'll be there before you know  
I See you in my minds' eye.  
Fly dragonfly  
Fly Dragonfly  
Fly Dragonfly  
Fly, Dragonfly.
