

# Die Trying

## Art of Dying

I think it's time for me to go now  
I've done more harm than good  
If I could change how this turned out  
Yeah...

you know that I would Sometimes the weight is more than I can hold  
I'd rather fail then not know If it takes forever I will die trying  
If it takes forever I will die trying  
I will die trying

I wish I knew then what I know now  
But I'd probably do the same  
Yeah...

I get the feeling it's planned out  
from the cradle to the grave Sometimes the weight is more than I can hold  
But I'd rather fail then never really know If it takes forever I will die trying

If it takes forever I will die trying  
I will die trying I am digging a hole  
I am taking it all

I am digging a hole to bury my soul  
I am digging If it takes forever I will die trying  
If it takes forever I will die trying  
If it takes forever I will die trying

If it takes forever (forever) I will die trying (I will die trying)  
If it takes forever (forever) I will die trying  
I will die trying

Trying
