

TV in the Morning

DNCE

And all of the heavy hearts
Are broke in their backs
And all of the die-hard valentines
Are calling me back You can find me in the restaurant
You can find me at the pool
You can find me in the mistletoe
Playing it cool
Singing
Just don't pluck with me
Whats the rush, I wanna know
Just don't pluck with me
I don't wanna love you
I don't wanna your hand
But we can watch TV in the morning
Drinking coffee in my bed
I don't wanna love you
I don't have no plans, no
And you can stay over if you want to
Stay over if you can And all of the cold-in beds
Are tired as news
And all of the valves of kinda fast
Remind me of you
They kinda find me in the counseling
They kinda find me in the school
I'm waiting in the mistletoe
Playing it cool
Singing
Just don't pluck with me
Whats the rush, I wanna know
Just don't pluck with me I don't wanna love you
I don't wanna your hand
But we can watch TV in the morning
Drinking coffee in my bed
I don't wanna love you
I don't have no plans, no
And you can stay over if you want to
Stay over if you can Oh, stay over if you want to
Stay over if you can
Oh, stay over if you want to
Stay over if you can Come be my companion (be my companion)
Come be my friend (be my friend)
Wanna let some steam off (wanna let some steam off)

You know where I am (you know where I am)
Come be my companion (you know where I am)
Come be my friend (you know)
If you need a companion
You know where I am I don't wanna love you
I don't wanna your hand
But we can watch TV in the morning
Drinking coffee in my bed
I don't wanna love you (don't wanna love you)
I don't have no plans, no (don't have no plans)
And you can stay over if you want to (over if you want to)
Stay over if you can (stay over if you can) I don't wanna love you (I don't wanna love you)
I don't wanna your hand (I don't wanna wear your hand)
But we can watch TV in the morning (we can be watching TV in the morning)
Drinking coffee in my bed (you will never wanna get out of my bed)
I don't wanna love you (It's like that I love you)
I don't have no plans (I just want you here tonight)
So, you can stay over if you want to
Stay over if you can (stay over if you can) Over if you can
Over if you can
Over if you can
Stay over if you can
