

Just Hold On

Citizen Way

I'm tired so tired
But I'm still so far
This race of life it never stops
Feels like I'm one big hopeless case
So here I am I'm giving up
My will my plans
I choose to trust that
Everything You say You do You do
And every little Word You speak is true
And You say You say
Hold on hold on
I am right beside you
Don't you let go don't let go
I will never leave you
You never have to be afraid
I will be with you always
Stand tall stand tall
What could stand against you
It's not long not long
I'll be coming for you
This isn't where your heart belongs
So 'til you're singing heaven's songs
Just hold on
I'll fight the fight here on my knees
I might not see but I believe that
Everything You say You do You do
Every little word You speak is true
And You say You say
I'll hold on to Your promises
Though I don't know what lies ahead
You show Your faithfulness
Again and again and again
I love you I love you I love you
And it's gonna be ok
I'm with you I'm with you
You don't have to be afraid
This isn't where your heart belongs
So 'til you're singing heaven's songs
Just hold on just hold on
