

Make U Love Me

Tujamo

I've been thinking 'bout the way you look at me
Are you sure you know the one?
You can't tell me that these feelings don't run deep
Why try and hide from what belongs?
Are you gonna make a move
Hiding me is not a possibility
Now the time has come to prove
That I'm gonna make you love me anyway
That I'm gonna make you love
That I'm gonna make you love
That I'm gonna make you love me anyway
That I'm gonna make you love
That I'm gonna make you love
That I'm gonna make you love me anyway
Are you gonna make a move?
Now the time has come to prove
(Are you gonna make a move?)
I've been thinking 'bout the way you look at me
Are you sure you know the one?
You can't tell me that these feelings don't run deep
Why try and hide from what belongs?
Are you gonna make a move?
Hiding me is not a possibility
Now the time has come to prove
That I'm gonna make you love me anyway
Are you gonna make a move?
Now the time has come to prove
