

# No Ulterior Motives

## Walk Off the Earth

No ulterior motives, all my focus on you  
I can't hide the way I'm feeling girl  
Who's kidding who Well we just met but girl there's something that I like  
I'll get right to the point  
I will not waste your time, I said  
I'd like to get to know you inside out and backwards, then I'll know  
I like your smile but I love the way you laugh  
I keep on thinking that I know you from my past, I said  
I'm giving you what you need  
Well I should gain control but I can't stop thinking  
Girl I wanna drink from your cup  
You got me goin' girl, I can't get enough  
Wanna taste you on my lips, girl I'm in lust  
You got me goin', you got me goin' I like the way you talk  
I love the words you choose  
You keep surprising me with all your thoughts and views, I think  
Is she too good to be true?  
'Cause I don't think I ever met a girl like you  
And I won't wait or waste your time  
I'll tell you what's on my mind  
I need you and you need me  
Well I am here to fulfill your needs
