

# Location (feat. Burna Boy)

Dave

If you send me the location  
Then I'll be right there  
Make I come check you, my baby  
No time, no  
And my dog, he's on probation  
Another 5 years  
Me bring girls to his location  
No time, no  
Send me the location  
This year about vacations  
Flight-catchin', train-takin'  
Soon as my nigga off probation  
Your boyfriend's on a waitin' ting  
Lookin' for one wish on a Ray J ting  
I pree'd that girl, outrageous ting  
But she can't see 'cause I got shades and ting  
Bare girls wanna throw shade and ting  
No shade, what shade is your foundation in?  
Darkest grey, the shade I'm in  
49 more if your babes wants in  
I had me a famous ting  
Goals and tings, gains and tings  
My house party a Babestation  
Girls wanna chase, it's a status ting  
If you send me the location  
Then I'll be right there  
Let me ca-come check you, my baby  
No time, no  
And my dog, he's on probation  
Another 5 years  
Me bring girls to his location  
No time, no  
Look  
Playboy, I don't need a Carti  
I'm captain, I lead the army  
Bad ratio, I leave the party  
Three Somalis creepin' on me  
Your ex wavey, we tsunami  
Girl from India, sweetest naani  
Head so good now I speak Gujarati  
You hardly part me, I'm laughing again  
I assisted man, passed to my friend  
Look, money like the alphabet  
If you wanna see P's, gotta pass on the ends  
Came a long way from a park in the bends

To an '18 plate, man's parkin' a Benz  
Far from the rest but I'm far from my best  
Life is a lesson, I'm passin' the test  
Yes, everyting blessed  
I don't want drama and I don't want stress  
My girl got finesse, Caribbean flex  
Body and chest tick, body and chest  
Thank God more, I grew up with less  
Just to the right, raps to the left  
Arg in the middle, got C to the death  
Batch fulla dogs with the 60's vets  
If you send me the location  
Then I'll be right there  
Let me ca-come check you, my baby  
No time, no  
And my dog, he's on probation  
Another 5 years  
Me bring girls to his location  
Nigga I was down but I made it to the top right now  
(Right now, right now, right now)  
And I could pull a couple grand out my pocket right now  
(Right now, right now, right now)  
Yeah, I'm so fly, I'm flyer than a rocket right now  
(Right now, right now, right now)  
And all the games you play never stop right now  
(Right now, right now, right now)  
I grew up on the block  
I see everybody watching  
'Cause there's diamonds on my chain  
And there's diamonds on my watch  
Money moves, Off-White shoes  
Came straight from Virgil Abloh  
I've been down, I've been low  
Had my mattress on the floor  
Round here, no cap, billin' up  
Can a ring-ring my cellular  
My have a big fat spliff burnin' up  
Ina di big black Benz pullin' up  
Please tell everybody to stop pullin' up  
'Nuff champagne from the bar comin' up  
Party hard  
Make a live my life  
Nigga I was down but I made it to the top right now  
(Right now, right now, right now)  
And I could pull a couple grand out my pocket right now  
(Right now, right now, right now)  
Yeah, I'm so fly, yeah I'm flyer than a rocket right now  
(Right now, right now, right now)  
And all the games you play never stop right now  
(Right now, right now, right now)  
If you send me the location  
Then I'll be right there  
Let me ca-come check you, my baby  
No time, no  
And my dog, he's on probation

Another 5 years  
Me bring girls to his location  
No time, no
