Mexico (feat. Shirazi)

Afrojack

Sun is back No lanes in the way I goFlames blow away And memories Out the smokeAnd now It's time For miles And milesAnd I'll be going until I just run Out the roadIf you're looking for me I'll be in the land of the free Nobody there's guilty By the time you know That you look go How we know, know, know, know In MexicoSun is back No lanes in the way I goFlames blow away And memories Out the smokeAnd now It's time For miles And milesAnd I'll be going until I just run Out the roadIf you're looking for me I'll be in the land of the free Nobody there's guilty By the time you know That you look go How we know, know, know, know In Mexico
