

# Shadow On the Wall

Ruby Amanfu

Gone

It's hard for me to see  
when I'm wrong

It's hard for me to weep  
when I'm strong

But I could never sleep when you're gone Oh

but still If you were gonna crucify me

I wouldn't want nobody to see

'Cause you could kick me hard

when I'm down

Down, down

How long to be

A shadow on the wall

I will make no sound at all

And when the sun goes down

The shadow on the wall

It cannot be seen at all

Over it

Hey it's not that you would mess with my head I believe that you believe what you said You  
think you know me best and you care But that's not fair! 'Cause I don't really wanna to be safe It  
must have been the way I was raised Sleep with one eye open I say

Hey hey hey

I don't wanna be

Nobody's fool I've played that part so many times before

How long to be

A shadow on the wall

I will make no sound at all

And when the sun goes down

The shadow on the wall

It cannot be seen at all

(make no sound at all)

Oh

How long to be

A shadow on the wall

I would make no sound at all

And when the sun goes down

A shadow on the wall

It cannot be seen at all
