

Nobody

Gorgon City & DRAMA

(So tell me that you need me) And nobody's gonna want you like I do
Nobody's gonna love you
And nobody's gonna want you like I do
Nobody's gonna love you And nobody's gonna want you like I do
Nobody's gonna love you
And nobody's gonna want you like I do
Nobody's gonna love you
Nobody And what if this is meant to be
And I was made for you, you for me?
And what if we just made this work
And figured this out and no one gets hurt?
Just tell me that you need me
No, we don't need to take our time 'cause
Just tell me that you need me
And we'll figure this out and mould this hurt And nobody's gonna want you like I do
Nobody's gonna love you
And nobody's gonna want you like I do
Nobody's gonna love you
Nobody And loving you is easy
But I wish that you could read my mind
So I know that you believe me
No, we don't need to take our time 'cause Just tell me that you need me
No, we don't need to take our time 'cause
Just tell me that you need me
And we'll figure this out and mould this hurt
And nobody's gonna want you like I do
Nobody's gonna love you
(Nobody's gonna love you like I do)
And nobody's gonna want you like I do
Nobody's gonna love you
(Nobody's gonna want you) And nobody's gonna want you like I do
Nobody's gonna love you
And nobody's gonna want you like I do
Nobody's gonna love you
