

# Something New (feat. Sage the Gemini & Ymtk)

Iamsu!

Always see me stowen somethin' new  
Always see me stowen somethin' new  
Mournin' a little, little, little  
Mournin' a little, little, little  
Always see me stowen somethin' new  
Always see me stowen somethin' new  
Mournin' a little, little, little  
Mournin' a little  
I don't front for nobody  
I don't front for nobody  
Always see me stowen somethin' new  
I know you see me  
Know you see me all the time  
It's a  
List of people tryna get you with sali  
She independent, gotta get it, on her grind  
But I'ma get it  
I can't get it off my mind  
93 octane  
That's what her car takes  
She wanna put a band-aid over the heartbreaks  
Swaggin' out all day  
The one like a ball fake  
Soakin' up our game  
Your boy on a campaign  
Me and Kiki smokin' tree tree  
I'ma pull up on her bumper like beep beep  
I know you haters can't beat me  
Make your girlfriend leave you and keep me  
Since you think you famous  
You gon' get it  
And since you think you famous  
You gon' hit it, huh  
She talkin' 'bout let me remind you  
I'm like shut the hell up  
I want your partner behind you  
Missed out  
Now you act all sour  
Your friend in the car that do 200 miles per hour  
You tryna block cause you fiend for power

Crib 10, 000 square feet  
She like I'm fine without her  
I ain't flexin'  
I just live a different lifestyle  
I plag a Magnum and your ex be usin' Lifestyles  
Your ex say live like me, huh  
Well how you still adjustin' to your lifestyle
