

# No Submission

## Static-X

Shut out, cut out, bloodless  
Hopeless, hating as I fade  
Pulsate, pushing, head exploding  
Razor sharp the tongue is Put down, run out, I could care less  
Throw down as I hate  
Feeding, needing, severed bleeding  
Pull it our exposing Take a beating, needle speeding  
Fall into a daze  
Defecation, detonation  
Tear the tongue apart and Terminate it, suffocate it  
Spitting in your face  
Accelerate, exterminate it  
Take it all in hand  
There's no submission  
No submission Shut out, cut out, bloodless  
Hopeless, hating as I fade  
Pulsate, pushing, head exploding  
Razor sharp the tongue is Put down, run out, I could care less  
Throw down as I hate  
Feeding, needing, severed bleeding  
Pull it our exposing Take a beating, needle speeding  
Fall into a daze  
Defecation, detonation  
Tear the tongue apart and Terminate it, suffocate it  
Spitting in your face  
Accelerate, exterminate it  
Take it all in hand  
There's no submission  
No submission  
Blue turns to white No submission  
No submission No submission  
No submission  
Blue turns to white No submission  
No submission
