California Soul

Marlena Shaw

Like a sound you hear That lingers in your ear You can't forget From sunrise to sunsetIt's all in the air You hear it everywhere No matter what you do It's gonna get a hold on you California soul California soulThey say the sun Comes up every morning And if you listen carefully The winds that ride On the high tide Whistle a melody So the people started to sing And that's how the Surf gave birth untold to California soul California soulWhen you hear the beat You wanna pat your feet And you've gotta move cause It's really such a groove Puts a brand new kind of Thinking in your mind And you can't go wrong 'Cause you're happy all day long California soul California soul They had the melody and the beat But it still didn't seem complete Until they saw two lovers kissing They knew just what was missing So happy they were Rocking and reeling Because they added That loving feeling To California soul California soul California soulNow if they move you Will it move you It can groove, you, baby California soul

California soul, yeah California soul Satisfaction, darling
