

Fly Away

Driver

Looking for answers deep in the night
Born in the shadows hiding from sight
Losing my senses out in the cold
When I felt the power breaking the hold. Like does it mean you'll stand apart
You're dead or alive inside this world. Fly away, you can find a way.
Fly away, the price is paid. Hiding your secrets under your skin
Livin' the lie you never could win.
Get out of your prison, open the door.
You're playin' with fire as I was before.
Like does it mean you'll stand apart
You're dead or alive inside this world.
Fly away, you can find a way.
Fly away, the price is paid.
Fly away, you can find a way.
Fly away, you've got to get away. Run it, fight it, turn it from the light of the day.
Livin', diein', turnin' quickly fadin' away. Fly away
