

Back to the Earth

Starset

And the world
Pulled me high
Far above
Wicked skies
Set me free
Set alive
I become
Satellite Isolated
I succumb to the weight of world
Separated
I fall from the sky
Is this death or rebirth?
Falling back to the earth I ignite
Engine glow
Jettison
All I know
Isolated
I succumb to the weight of world
Separated
I fall from the sky Is this death or rebirth?
Falling back to the earth.
