

Inseparable

Jasmine Trias

Take my hand tonight
We can run so far
We can change the world to anything we want
We can stop for hours just staring at the stars
They shine down to show us That you know when the sun forgets to shine
I'll be there to hold you through the night
And we'll be running so fast we can fly tonight
And even when we're miles and miles apart
You're still holding all of my heart
I promise it will never be dark
I know. we're inseparable
We could run forever if you want it too
And i would not get tired
Because I'd be with you
I can keep singing this song until the very end
We have done all these things (Yeah!) You know when the sun forgets to shine
I'll be there to hold you through the night
We'll be runnin' so fast we can fly tonight
And even when we're miles and miles apart
You'll still be holdin' all of my heart
I promise it will never be dark
I know. we're inseparable I would give it up
To never let you fall
Cuz you know we're inseparable
I would give it all
Just to show you i'm in love
Cuz you know we're inseparable
You know when the sun forgets to shine
I'll be there to hold you through the night
We'll be runnin' so fast we can fly tonight
And even when we're miles and miles apart
You'll still be holdin' all of my heart
I promise it will never be dark
I know. we're inseparable
(ooooh)
