

# Blue Bucket of Gold

Sufjan Stevens

My blue bucket of gold  
Friend, why don't you love me?  
Once the myth has been told  
The lens deforms it as lightning  
Raise your right hand  
Tell me you want me in your life  
Or raise your red flag  
Just when I want you in my life  
Search for things to extol  
Friend, the fables delight me  
My blue bucket of gold  
Lord, touch me with lightning  
Raise your right hand  
Tell me you want me in your life  
Or raise your red flag  
Just when I want you in my life
