This Is Love

George Harrison

Precious words drift away from their meaning
And the sun melts the chill from our lives
Helping us all to remember what we came here for
This is love, this is la la la-la love

This is love, this is la la la-la loveLittle things that will change you forever

May appear from way out of the blue

Making fools of everybody who don't understand

This is love, this is la la la-la love

This is love, this is la la la-la love

(This is love, this is love, ah)

This is love, this is la la la-la loveSince our problems have been our own creation They also can be overcome

When we use the power provided free to everyone

This is love, this is la la la-la love

This is love, this is la la la-la love

This is love, this is la la la-la love

This is love, this is la la la-la love

Ooh, this is love, this is la la la-la love

This is love, this is la la la-la love

This is love, this is la la la-la love
