

# Remember Us (feat. Sara Bareilles)

## Aqualung

Baby don't talk, don't say anything  
There's no need, to say anything  
Cause lately when we talk  
We just spin around  
So tonight why don't we just sit and talk  
Let our shadows show us what to do  
What to be And in the hush remember us  
(oo oo oo oo ) x 4  
Skin across my skin  
Do you feel it burn  
Darling  
In this remembering  
Rememberin' how we used to be  
Oh my, how its suppose to be  
And then as one we come undone  
We find there's a soulful mind intertwined  
And we find That in the hush remember us  
(oo oo oo oo) x 4 Remember us  
(Sara Barielles)  
Baby don't talk, don't say anything  
No need, to say anything  
Cause lately when we talk  
We just spin around  
So tonight just set it down
