

Pawns (feat. Baby, Nym & Janelle)

Paloma Faith

We want to use our vote (yeah)
So then (we just vote)
So we vote
But we don't, we're not actually...
I feel like we're not actually being heard
We're just kind of being patted on the head
And quietened We really care about these things
That's why we're here, that's why we're getting together in force
To be here and to say something
To show you and to make a change
But then we really kind of...
We're just pawns in this
And you're like, allowing us to have our playtime
