

Sincerely

August Alsina

Dear Shay

Seems like it was just the other day, you was a baby
In my arms and soon you gon' be all grown and it's so crazy

I wish I could turn back the clock

Or better yet make it stop

And give you all that I've got

Like every guy's gonna tell you that you're beautiful

Remember I would tell you first, so it ain't new to you

I know in a while, it's gon' be hard for me to get through to you

You gon' think that you know it all

But that ain't gon' be the truth

I'ma always be there for you

Love and care for you

Long as you do what you're supposed to do

Give it everything you got, it's cool

I will try to give you every tool

At my disposal, it's alright you

You gon' know what kinda road to chose

Your decision, gon' be up to you

In the flesh you gonna

You gon' be out there on your own

Hearin' me love

Hope whatever I teach was

In the moment, you feel it's dumb

Don't be wantin' you feelin' like your mom and dad ain't here with y'all

That you out here alone

I did that to be

Sincerely

I love you with everything in me

PS, I hope that you feel me

Hope you know I got you

Without a doubt in my heart

Yours truly Dear Maya

I know sometimes how you feel overlooked, because you quiet

I used to be the same as you when I was younger

When I was hurt and I would keep it all inside

'Till it burned me up and turned into a fire

It's okay, to tell someone when your heart race

Trust in me, promise that I won't betray

We all need, need somebody to confide in

And a shoulder we can lean on

Safe space, you can cry in

In these arms, I got you
Want you to know how proud you make me, with your schoolin'
Anything that you wanna be in this life, know you gon' do it
 , sky is the limit
He's gonna say that you want it
 You gotta go out and get it
I can't wait to see the world in you turn out to big
It ain't a moment you're alive, you ain't impressin' me
I really hope that I can bless you, how you're blessin' me
You just put your trust in God and put the rest in me Sincerely
 I love you with everything in me
 PS, I hope that you feel me
 Hope you know I got you
 Without a doubt in my heart
 Yours truly Dear Kay-kay
 What can I say, say, say?
 Ever since your first day
 It's like you've been here before
 Was here beyond your days
Truly you move to the beat of your own drum
 And your own parade
I know when life gets tough, that you're gonna be okay
You keep a smile on your face, even on the darkest days
 off your strength, I can face an hurricane
And with a face just like mine, when you cry I feel your pain
 And I try to hug it away
 So that you ain't feelin' the same
 Use your voice to sing, every melodies
 Fill it up with the joy
Big things are done, so you gon' do greater things
 Take your time young princess
 One day you'll be a queen
You're so special, hope you know I'm here for you
 I got so much love to give, I'll share with you
Stay who you are, don't let no one dim your storm
 Take it from me, understands you Sincerely
 I love you with everything in me
 PS, I hope that you feel me
 Hope you know I got you
 Without a doubt in my heart
 Yours truly
