

Let Go

Shaimus

Body looking for soul
Hungry for home.
You've got to lay your weapons down,
I'm sure that you know. Could you have turned into
The man who used to chase you
In your dreams?
Could it be
As hard as it seems?
Or is it just that simple? Soon you'll have to
Let Go...
And watch it through the world that you know.
Let it Go
And wash away the world that you know.
Any way it goes.
Reborn to follow their way,
You've got a hand in the game.
You know how cheap their attention can be
When they just want to
Continue their name. Could you have turned
Into a man who
Would have laughed had you been braver?
And why not now
To dream again
Become the man who saved you. Soon you'll have to...
Let Go...
And watch it through the world that you know...
Let it Go...
And wash away the world that you know...
Any way it goes...
Take a look
At the stills you took.
It wasn't all that long ago... Empty cupboards
Just a beer in your hand.
It was easy then... Could you...
Or could be... Just that simple
Soon you'll have to...
Let Go...
And watch it through the world that you know...
Let it Go...
And wash away the world that you know... Let
It Go... (Hu ... U...)
Any way it goes...
